FOR IMMEDIATE RELEASE

Stampfli Lane Left Turn Project Begins

REDDING – Construction crews have begun work this week on a highway improvement project at Stampfli Lane on State Route 89, near Crescent Mills in northern Plumas County. The California Department of Transportation has awarded a \$528,000 contract to Robert R. Peachier, of Chico, to reconstruct a section of roadway and provide a new left turn lane for southbound traffic, improving the operational conditions at Stampfli Lane. Funding for the project is provided by a combination of the Department's State Transportation Improvement Program and Regional Improvement Program from Plumas County. Completion of the project is expected by the end of August.

Workers and equipment will be in and around the construction zone Monday through Friday between the hours of 7:00 AM and 7:00 PM. Motorists will be subject to one-way traffic conditions controlled by flaggers and pilot cars. Delays of up to five minutes may be expected during scheduled work hours. Advance warning and changeable message signs will alert motorists when approaching the work zones.

Motorists are asked to reduce their speed and be prepared to stop at the traffic control station when approaching the construction zone. Workers on the ground and heavy equipment will be in close proximity to the centerline of the highway.

The Caltrans Resident Engineer for the project will be Kurt Schneider.
